Play, hang out and meet people who are into the same things you are. Never picked up a controller, or play every night? Either way, this is for you.

What a session looks like

- **Check in:** say hi, share what you have been playing, or just listen.
- **Talk it out:** a quick prompt that gets everyone thinking.
- **Play together:** a group game or team challenge.
- **Take a break:** snacks, water and a stretch.
- **Open play:** your game, your people. Tournaments and prizes on event days.

Some of the games we play

Mario Kart, Smash Bros., Fortnite, Rocket League, Minecraft, Valorant and more. We are always open to your suggestions.

More than the game

The same group every time, so you actually get to know people. You build skills that go with you, like speaking up, teamwork and problem solving, and you get a look at streaming, content creation and the jobs around gaming.

How to join

Talk to the staff at your program. They sign you up and your program covers the cost. No experience needed and nothing to bring.

"My favorite part was getting to meet new people, talking and playing games."
